

Massive Migrations Require a Comprehensive Solution

Body:

Andrea Amoroso is a senior analyst at Soluzioni per le Imprese e il Territorio (Si&T), an IT services company located in the Pescara province of Italy.

Challenge

Clients looking to migrate reports to a new platform need a lot of processing power. And when there are more than 600 reports to migrate, it's more efficient and financially responsible to find a tech solution to help manage such high volumes. Instead of relying on a manual report transition, Andrea went looking for a better solution.

Solution

After checking out a few options online, Andrea found Bold Reports®, a precise and secure reporting solution designed by developers, for developers. With easy onboarding and a dedicated support team, Si&T found its perfect solution—one that saved the company time and money.

Result

After checking out a few options online, Andrea found Bold Reports®, a precise and secure reporting solution designed by developers, for developers. With easy onboarding and a dedicated support team, Si&T found its perfect solution—one that saved the company time and money.

Pull Quote

"The onboarding was really easy, and the support team is really nice and helpful."
